INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

It is respectfully requested that this INFORMATION DISCLOSURE STATEMENT (IDS) be entered by the US Patent and Trademark Office (USPTO) and that consideration by the USPTO examiner of the approximately forty-five (45) documents listed on the enclosed Form PTO-1449 be made of record.

This INFORMATION DISCLOSURE STATEMENT is being submitted before the mailing of a final action under 37 CFR 1.113, a notice of allowance under 37 CFR 1.311 or an action that otherwise closes prosecution of the application.

Enclosed is completed form PTO/SB/17 authorizing the Office to charge the fees, including the fee(s) required under 37 CFR 1.97(c)(2) and set forth in 37 CFR 1.178(p), to the undersigned's deposit account 04-0039 (ref.: 505341).

Copies of 41 of the 46 documents cited herein are not enclosed, because it is believed these 41 documents comply with the provisions of 37 CFR 1.98(d). Specifically, it is believed each of these documents complies with 37 CFR 1.98(d)(1) in that each document was cited in parent application USSN.09/685312, which previous application is relied on for an earlier effective filing date under 35 U.S.C. 120; and the information disclosure in the previous application complies with 37 CFR 1.98(d)(2), in that the approximately 41 documents were cited in the earlier application by the Office in PTO-892 or by applicant in an information disclosure, in compliance with 37 CFR 1.98(a)-(c).

The other five of the 46 documents cited herein are Japanese patent documents which were cited in 2004 by the Japanese Patent Office during the examination of a Japanese application corresponding to one of the parents of the present application. These five cited Japanese patent documents are identified below (as well as in enclosed Form 1449) and copies are enclosed:

1. Japanese Patent Application Laid Open JP-A-SHOWA-53-126478 (1978) (Application no. SHOWA-52-42342).
2. Japanese Patent Application Laid Open JP-A-SHOWA-54-38648 (1979) (Application No. SHOWA-52-105456)
3. Japanese Utility Model Application Laid Open JP-U-A-SHOWA-54-90032 (1979) (Application No. SHOWA-52-164445)
4. Japanese Utility Model Application Laid Open JP-U-A-SHOWA-63-94234 (1988) (Application No. SHOWA-61-189550)
5. Japanese Patent Application Laid Open JP-A-SHOWA-63-130938 (1988) (Application No. SHOWA-61-275303).

It is believed that this disclosure statement complies with the requirements of 37 CFR §§ 1.56, 1.97, and 1.98, and the relevant sections of the Manual of Patent Examining Procedures. If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be called so that any deficiencies can be remedied.

Any comments included here are offered as an initial aid to the Examiner. Our discussion, however, is not intended to take the place of the Examiner's complete consideration of each listed document. The Examiner is requested to independently consider each document to the full extent that it may be material to the present application.

The cited documents are being cited for completeness, and documents may be included which are not prior art.

The cited documents were cited in one or more parent and/or otherwise related applications relating to spring drives, including helical or coil spring drives and/or flat spiral or flat spring drives.

Several of the cited documents relate primarily to helical or coil spring drives, and several of the documents may be cumulative of other documents cited herein. However, because the cited documents were cited in one or more parent and/or otherwise related applications, the documents are being cited here to ensure consideration by the examiner independent of applicant and the undersigned.

The information regarding the source of cited documents is provided by way of information only, without acknowledgment of particular relevance to the claims of the present application.

This disclosure statement should not be construed as a representation that a search has been made or that no other material information exists.
